1- About Us

CEDAR Printing And Packaging was founded in 2018 with a clear vision: to revolutionize the printing and packaging industry by merging high quality craftsmanship with cutting-edge technology. From our inception, we have focused on moving beyond traditional methods to deliver solutions that are as innovative as the products they protect and promote.

Our specialization lies in providing modern printing and packaging solutions that cater to the dynamic needs of today's market. We understand that packaging is the first physical touchpoint a customer has with a brand, and we treat it as a critical component of the overall customer experience.

Custom Food Packaging & Printing

By integrating advanced digital printing, automated finishing systems, and creative design services, we help clients create packaging that not only safeguards their products but also tells their brand story effectively and memorably.

The company's growth has been fueled by strategic investments in state-of-the-art machinery and a talented team of designers and engineers. This allows us to handle projects of any scale, from small-batch custom orders for startups to high-volume production runs for established corporations.

Our expertise spans various printing techniques, including offset, Uv Dtf, and digital printing, ensuring we can select the most efficient and impactful method for every client's unique requirements and budget.

Custom UV DTF Printing

2. Mission & Vision

2.1 Our Mission

Our mission is to provide innovative, reliable, and sustainable packaging solutions that empower brands to stand out in a competitive marketplace. We are dedicated to understanding our clients' core challenges and aspirations, translating them into packaging that enhances product value, improves unboxing experiences, and drives consumer engagement.

Custom UV Vinyl Labels

We achieve this through a collaborative partnership model, where our clients' success is the ultimate measure of our own performance.

2.2 Our Vision

Our vision is to be the leading force in the evolution of the printing sector, setting new standards for quality, sustainability, and technological integration.

We aspire to create a future where packaging is universally recognized not as waste, but as a valuable, intelligent, and circular component of the product lifecycle.

Custom Printing Paper Cups & Paper Bags

We aim to lead the industry towards a more responsible and creative future, where every package we produce contributes positively to both our clients' bottom line and the health of our planet.

3.2 Custom Packaging Design & Engineering

Our in-house creative and structural design team works closely with clients from concept to completion.

We develop custom packaging designs that are not only visually striking but also functionally superior.

Our engineers utilize CAD software to prototype and test structures for durability, efficiency in shipping, and ease of assembly. Whether it's a unique folding carton, a rigid box, or a flexible pouch, we engineer solutions that protect the product and optimize shelf presence.
